## Superintendent's Highlights

During the 1998-99 school year, District 271 focused on strategic planning, curriculum assessment, public communication and staff recognition.

Many presentations were made to share progress the district has made in the past 10 years and to announce the recently completed strategic plan titled "A Decade of Change." The document took two years to develop and will continue to be a work in progress.

Highlights of the year included merit designation for the four schools. IEA "A+" awards for five schools and national recognition for arts in education. In November, Hayden Meadows teacher Judy Bieze was named Idaho Teacher of the Year.

Once again, the district aggressively pursued grants to provide more opportunities for students. The \$3-plus million total included \$729,000 from the J. A. and Kathryn Albertson Foundation to expand the Riverbend Professional/Technical Academy, a collaborative effort with Post Falls and Lakeland districts and North Idaho College.

## Progress Towards Meeting District Goals

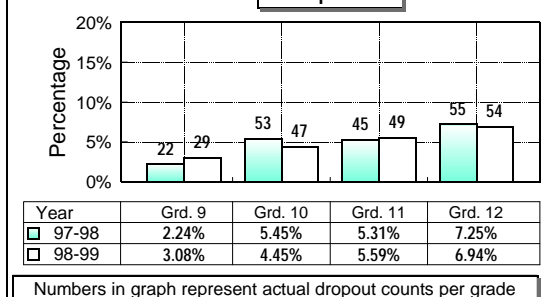

1998-99 Goals	Progress
To develop curricula which set high academic standards	Teams of teachers assessed K-12 curricula in five subject areas during the summer to prepare for curriculum revision next year.
To create an environment where all students learn	Learning opportunities were increased through a dual enrollment program with North Idaho College, more honors and Advanced Placement courses and expansion of technical/health services classes at Riverbend Professional/Technical Academy.
Positive, safe school climate	Safety efforts included monthly School Emergency Response Plan training sessions for staff, lockdown drills, and strict enforcement of zero-tolerance policies on weapons, drugs and bomb threats.
Frequent, effective communication with parents, staff and community	The district used its web site, PowerPoint presentations, personal contacts and various printed materials to communicate to a diverse constituency and to its employees.
Accountable fiscal management and expanded financial resources	The district trained staff in the new financial software, developed user-friendly budget summaries and offered direct payroll deposit to employees.
